4. JENA-ZWARTZEN (J77)

a. Kradschützen Kaserne - 1,300-1,400 men, some wearing armored insignia, others with artillery insignia, all with black shoulder straps and red piping. Some of the troops were cleaning nine of the twenty SU-85 which departed OHDRUF on 24 October (Cf Para 1 preceding); other 24 were practising marksmanship at a range NW of the barracks.

3. JENA-ROEDIGEN (J77)

a. The former airstrip, 3 km north of ZWARTZEN, is not being used by the Russians. One small and two large barracks are suitable for occupancy, the rest are largely destroyed. The field is held by a guard detachment of about 50 men. Parked vehicles: Two fuel trucks, and trucks

6. JENA-WEST

The former command building at the JENA-WEST Bahnhof was occupied by 60 men. German laborers stated that this was a station used by troops going on leave. Many troops are now leaving on furloughs, often in groups of 30-40 at a time.

7. WEIMAR (J57), 4-8 November

a. Barracks in WEIMAR are now occupied by troops who recently returned from OHDRUF and KINDL.

b. Lützendorf Kaserne - About 2,500 young troops, the majority wearing artillery insignia, black shoulder straps/red piping. A unit of 400-500 men, perhaps associate with vehicles in the wear black shoulder straps minus piping. Two 37 mm AA guns were being

c. Nachrichten Kaserne - Held by 500 men wearing red shoulder straps. Parked vehicles:

d. Flak Kaserne - Occupied by 1,600-1,800 men. Vehicles in not hitherto observed by source in Thuringia, carried officers and TM wearing green shoulder straps.

e. Infanterie Kaserne - This building on the Leibnitz Allee contains 500 troops, some with black shoulder straps, others with black shoulder straps/red piping. The following vehicles were being overhauled at a repair shop in the compound: Parked in front of the barrack
